EUROPEAN Exchanges

SOLUTIONS FOR A JOB SHADOWING and Education

EUROPEAN OPPORTUNITIES

European Exchanges

The project "The taste of Language", belongs to the **Grundtvig Program**, born

out of a contact seminar in Villasimius (Cagliari), entitled "Making Learning Visible: Valorization of Adult Learning in Informal Settings".

THE TASTE OF LANGUAGE aims to create an intercultural dialogue and a deeper understanding of life style, traditions, languages and cultural heritage among the five European partners, France, Italy, Slovakia, Sweden

and United Kingdom.

Increase language skills and understand cultural differences in European countries, discovering food and cooking traditions from different parts of Europe! ... Not already feel this good smell?

EUROPEAN OPPORTUNITIES

In the current context, characterized by the deep economic crisis in Europe and the difficulty of establishing a vision actually Europeanist, this action provides a contribution to the achievement of the objectives of the **Europe 2020 Strategy**, which aims, among other things, the increase in professional and training of human resources and the overall improvement of the living conditions of the "European citizens". It is not only to overcome the crisis that continues to plague the economy of many countries, but also wants to improve the European growth model, creating the conditions for sustainable economic smart and inclusive.

*We recommended following the **European Quality Charter** for Mobility, prepared by European Parliament and the Council of Europe. This Charter offers guidance or mobility under taken **by individual young people or adults**, for the purposes of formal and non-formal learning and for their personal and professional development. **We are organising our mobility and hosting activities following guidance of this charter for all the duration of the mobility.***

Nina Raineri from Miur USR Sicilia Ufficio XV Palermo, a partner of "The Taste of Language" project, is here for to compare best practices because we know that the future of Europe is to share and compare all systems and then to applicate it in the real context. We believe that our future is the cooperation, **for Adults and Young people**, in all subjects with Private or Public Associations in Europe, in a formal, not formal and informal way!
